

ALAN CUNIN

Software Engineer – Backend, Cloud & Agentic AI

Paris · Grand Est · Bourgogne-Franche-Comté, France · alancunin@gmail.com · +33 6 61 69 43 73

alancunin.fr · github.com/azurioh · linkedin.com/in/alancunin

Fourth-year Computer Science student at Epitech, currently on exchange at Dublin City University. Part-time CTO for an SME and freelance engineer, I design web solutions, cloud infrastructure and AI agent workflows. **Winner of the AWS Clash of Agents (#1 worldwide)** and of the **Prix CARE Alsace** at Hacking Health Camp 2026.

KEY ACHIEVEMENTS

- **AWS Clash of Agents (Mar 2026)**: 1st place worldwide in an agentic AI competition; cut agent latency from 140 s to 10 s.
- **Hacking Health Camp 2026, Strasbourg**: Prix CARE Alsace winner with VisiSurg (see Projects).
- **AWS Student Builder Group (SBG) Leader**: awarded the Silver distinction.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C/C++

Frameworks: Node.js, Fastify, React, Next.js, TanStack Start, Vue.js, Astro, Tailwind CSS

Cloud & DevOps: AWS, Docker, Kubernetes, Ansible, Jenkins, GitHub Actions

AI: AI coding agents (Claude Code, Codex), agent harnesses (OpenCode, JCode), MCP, CLI tools, RAG

Practices: Clean Architecture, Hexagonal Architecture, REST APIs, Agile (Scrum)

Certifications: AWS Academy Graduate (Cloud Developing, Cloud Security Foundations); Claude Code in Action (Anthropic)

EXPERIENCE

Part-time CTO (freelance) | Création Parquets & Carrelages, Serre-les-Sapins, France 2026 – Present

- Design and develop custom business applications tailored to the company's operations.
- Advise management on IT decisions and digital strategy.
- Mission carried out through my freelance activity (azu-dev.fr, since Jun 2025).

Fullstack Developer | Quodalia, Guebwiller, France Apr 2026 – Aug 2026

- Built a web application following strict Clean Architecture principles.
- Optimized the team's agentic AI development workflows with Claude Code.

Teaching Assistant | Epitech, Mulhouse, France Feb 2025 – Mar 2026

- Mentored students on complex software projects; designed and delivered workshops and teaching modules.

Backend Developer | AkorD, Mulhouse, France Jul 2024 – Dec 2024

- Developed backend services on AWS, implemented RESTful APIs and optimized database performance.

PROJECTS

Chiffra | Epitech end-of-studies project (EIP) Apr 2026 – Present

- Co-founder and technical lead: in charge of the technical architecture and product development.

VisiSurg | React, Vite, Tailwind, LLM, RAG Hacking Health Camp 2026

- Turns surgical reports into interactive 3D visualizations with a RAG chatbot. Winner of the Prix CARE Alsace.

Open source | TypeScript, Node.js, discord.js 2026

- **discord-kernel**: framework for Discord bots with typed commands, guards and i18n, built on Clean Architecture.
- **ccprofile**: CLI to manage Claude Code plugin profiles per project (github.com/Azurioh).

EDUCATION

Dublin City University | Exchange Year, Computer Science, Dublin, Ireland 2026 – 2027

Epitech | Programme Grande École – Expert in Information Technology (Master's level) 2023 – 2028 (expected)

LEADERSHIP

- **AWS Student Builder Group (SBG) Leader, Mulhouse** (Nov 2025 – Sep 2026): ran technical workshops on AWS services and organized tech talks with AWS experts.
- **Director & Developer, BSK Esport, Besançon** (2022 – Present): co-lead the association's strategy, built its website and live-streaming setup, and organize major events.
- **Epitech**: Ambassador (Oct 2023 – Jun 2026), then International Ambassador (Sep 2026 – Jun 2027); treasurer of the student union (BDE) and founder of the Gaming Club.

LANGUAGES & INTERESTS

French: native | **English**: B2 (exchange year in Dublin) | **Interests**: DJing (DCU DJ Society), esport, metal & rock music
